SANKALP PANDEY

Kanpur, Uttar Pradesh, India | +91 9569946288 | pandeysankalp061@gmail.com | linkedin.com/in/sankalp-pandey-aa2632347 | github.com/pandeysankalp061-prog

SUMMARY

Computer Science undergraduate with hands-on experience building full-stack web applications using JavaScript, Node.js, and REST API integration, and working with MongoDB for database management. Strong analytical and problem-solving skills, with quick aptitude for learning new application development platforms, developed through hackathons, internships, and team-based projects.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University — Maharana Pratap Engineering College 2023 – 2027
Bachelor of Technology, Computer Science and Engineering | CGPA: 8.0 / 10.0

NLK Inter College (UP Board) 2023
Intermediate (12th) — 80.2%

NLK Inter College (UP Board) 2021
High School (10th) — 89.7%

TECHNICAL SKILLS

Web Technologies: HTML5, CSS3, JavaScript (ES6+), React.js

Backend & Application Development: Node.js, Express.js

APIs & Integration: REST API / RESTful API Integration

Database: MongoDB, Data Modeling Fundamentals

Programming Languages: JavaScript, Python, Java, C++

Developer Tools: Git, GitHub, Postman, VS Code

EXPERIENCE

Full Stack Developer — Cognifyz Technologies (Virtual Internship)

- Completed hands-on full stack development tasks covering frontend UI building, backend API development, and end-to-end MERN-stack integration.

Virtual Internship — ServiceNow

- Completed ServiceNow's virtual internship track, gaining exposure to enterprise platform administration and application/AI-agent fundamentals alongside development tasks.

PROJECTS

Weather App | *HTML, CSS, JavaScript, REST API Integration*

- Built a responsive web application using HTML, CSS and JavaScript with REST API integration for real-time weather data retrieval.
- Implemented city-based search with dynamic UI updates for temperature, humidity, and forecast conditions, focusing on cross-browser compatibility.

Rooftop Rainwater Harvesting System | *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack MERN application with database-driven logic in MongoDB to calculate rooftop rainwater storage tank requirements.
- Collaborated in a team to design frontend, backend, and data layers, applying analytical problem-solving to a real-world water-scarcity use case.

ACHIEVEMENTS & CERTIFICATIONS

- Smart India Hackathon (SIH) — Team Participant, Rank 17
- LeetCode — 400+ problems solved; HackerRank — 5-Star rating
- Administration Fundamentals (On Demand) — ServiceNow; Joy of Computing using Python — NPTEL
- Introduction to Back-End Development — Meta (Coursera); AWS Cloud Practitioner Essentials — AWS Training & Certification

SOFT SKILLS

Analytical Problem Solving | Logical Reasoning | Team Collaboration | Effective Communication | Quick Learner | Adaptable
